EMPOWERMENT

SCHOOL LIBRARY

The School Library is the central hub that supports and helps every member of the school community – students, staff, parents to gain new knowledge, skills and disposition for learning and personal development .

The School library provides

information and ideas that are fundamental to functioning successfully in today's information and knowledge-based society.

The School library equips students with

lifelong learning skills and develops the imagination, enabling them to live as responsible citizens.

Need of Library and Librarian

*The fast evolving digital world has created a dichotomy where there is an increased opportunity to access troves of information, but... access isn't guaranteed. **That's where Libraries come in....** Again library users need regular instructions to analyze and research to find the needed information or book. Today's students for whom reams of information on almost any subjects are available at the touch of the finger, are in greater need than any of guidance on how to select, sift and make use of the best of what is on offer. **And that's where need of librarians come in....***

Librarian's Role Includes

In Schools where student's learning is a top priority

- *teacher*
- *instructional partner*
- *reading motivator*
- *information specialist*
- *curator*
- *program administrator*

Fostering Love of Reading

*Fostering a love of reading is crucial .
**We want children to read for
pleasure and for meaning.** As,
Educators it is our responsibility to
find ways to encourage more young
generation to enjoy a good book...I
will share some ways which can help
in the educational processes.*

Introduce Them To The Author

Using Comics in The Classroom

SOCIAL MEDIA IN THE CLASSROOM

**JUST BECAUSE
KIDS KNOW HOW TO
USE TWITTER, SNAPCHAT, AND INSTAGRAM
DOESN'T MEAN THEY
KNOW HOW TO
USE TECHNOLOGY
TO ENHANCE
THEIR LEARNING.**

SOCIAL MEDIA IN THE CLASSROOM

SOCIAL MEDIA IN THE CLASSROOM

When you try to think of the favorite activity of today's students, you'll most probably come up with the obvious answer: social media.

It seems like students of all ages are obsessed by it. These social media channels have mesmerizing power, so they can often become great distractions in the classroom.

What most of us don't realize is that they can use social media to their advantage. These platforms have the power to enhance the collaboration and healthy competitive spirit in the classroom.

PROMOTE TEEN READING IN SCHOOL LIBRARY

- Step out of your comfort zone and promote something other than fiction. Many teens (boys especially) are not fiction readers; they may be more interested in your magazine collection.
- Get graphic. Graphic novels are appropriate for boys and girls and for teens. Many times they appeal to students who wouldn't ordinarily pick up a book.
- Create some library leaders. Make the library in your school a place for young leaders to develop their skills.
- Consider reviewing for a young adult magazine and have your students review as well. Sometimes the lure of seeing their name in print may push them to read more books.

School Libraries have maximum impact when they....

- Provide collaborative programs for reading instruction.
- Select and provide resources to meet the learning needs of all students.
- Assure seamless integration of technology, teaching, and learning.
- Provide resources to support state and national standards.
- Offer resources that enhance leveled classroom collections.
- Encourage students to independently seek, access, and use information.

Quality School Library Programs have maximum impact when they...

- Encourage classroom teachers to integrate literature and information skills into the curriculum.
- Offer opportunities for teachers and school librarians to collaborate on projects that help students use a variety of resources, conduct research, and present their findings.
- Are supported fiscally and programmatically by the educational community to achieve the mission of the school.

The Professional Certified School Librarians have maximum impact when they...

- Promote reading advocacy by matching students to books in all formats, including print, audio, and e-books.
- Teach information collecting skills.
- Collaborate with teachers to meet the intellectual needs of students.
- Acquire, Organize, manage, and physically maintain a collection of valuable resources.
- Provide resources and activities for students that are meaningful now and in the future.
- Share the findings of reading research with teachers.

CONCLUSION

In order to address growing concerns about the actual quality of education, policymakers are increasingly focusing their attention on ensuring that children in school are in fact learning. However, evidence has demonstrated that adding more teachers or textbooks is not necessarily an effective way to help those children who may lack the basic skills to take advantage of such resources. So it is very important to know that how the provision of libraries with age-appropriate reading-material and dedicated librarians helps improve educational attainment in a Library.

Thank You
