

Librarians' Day 2011

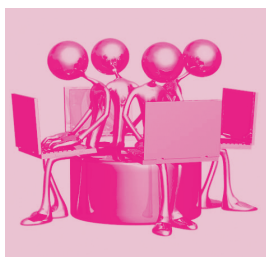

ADINET in collaboration with INFLIBNET & AMA is celebrating the birth anniversary of Dr. S. R. Ranganathan (Father of LIS in India) as Librarians' Day on Saturday 27 August 2011

About the Seminar

The Seminar theme is '**Networking of Libraries in Gujarat for Resource Sharing**'

The sub-themes are :

- Need and Importance of Networking
- Areas of Collaboration : Activities and Services
- Technology Aspects
Skills and Competencies Required for Networking

There is at present a deluge of information and the cost of procuring and processing it has been steadily increasing. The need and importance of library networking for information resource sharing and related activities is now well recognized. Several

resource sharing networks both national and city based have been started in India during the last two decades.

It is now important that both subject-wise and city-wise networks need to be established for Resource Sharing. The papers prepared for this Seminar, could then be based on this work.

At present there is an unprecedented growth in educational institutions in Gujarat. This growth is not only in higher education sector like colleges and universities, but also at the school level. The library facilities in many of these educational institutions are at the primary stage.

The need to develop and support libraries is well realized, however action needs to be taken on a large scale. LIS professionals should interact, join hands and work together to bring about transformation through teamwork.

ADINET :

ADINET is in the process of compiling a complete list of Libraries in Gujarat and their resources which can be shared. It will help LIS professionals to exchange information resources needed by their users.

INFLIBNET :

Information & Library Network (INFLIBNET) Centre, has started several new initiatives including NLIST, Shodhganga and OJS.

N-LIST (National Library and Information Services Infrastructure for Scholarly Content) extends e-Resources (2100 e-journals and 51,000 e-books) to colleges in India. **Shodhganga** is a national repository of theses & dissertations. It already hosts one thousand two hundred fifty full text theses. **OJS** is a platform that publishes and hosts electronic version of journals by faculty and researchers in universities.

KCG (Knowledge Consortium of Gujarat) :

Government of Gujarat has started initiatives like the Knowledge Consortium of Gujarat (KCG), with several objectives, some of which are:

provide a robust platform for extensive resource sharing and dissemination of knowledge

connect all universities, colleges, research institutions and libraries of the state with national and international knowledge networks act as a Resource Centre by preparing various databases

Libraries are storehouses of knowledge and do play a crucial role for over all growth and development in all fields, whether it is :

- To enhance the quality of education
- To provide information and ideas to function successfully in one's field of work
- To help human resource development
- To increase productivity for economic growth, or
- To induce thirst for knowledge.

Libraries are therefore important partners in the process of development.

Registration Form

LIBRARIANS' DAY 2011 AND SEMINAR

Networking Libraries in Gujarat for Resource Sharing

DATE :
August 27, 2011
VENUE :
Ahmedabad Management Association
